

Archaeology

Merit Badge Workbook

This workbook can help you but you still need to read the merit badge pamphlet.

This Workbook can help you organize your thoughts as you prepare to meet with your merit badge counselor.

You still must satisfy your counselor that you can demonstrate each skill and have learned the information.

You should use the work space provided for each requirement to keep track of which requirements have been completed, and to make notes for discussing the item with your counselor, not for providing full and complete answers.

If a requirement says that you must take an action using words such as "discuss", "show", "tell", "explain", "demonstrate", "identify", etc, that is what you must do.

Merit Badge Counselors may not require the use of this or any similar workbooks.

No one may add or subtract from the official requirements found in Boy Scout Requirements (Pub. 33216 – SKU 37685).

The requirements were last issued or revised in 2018 • This workbook was updated in January 2018.

Scout's Name: _____ Unit: _____

Counselor's Name: _____ Counselor's Phone No.: _____

Please submit errors, omissions, comments or suggestions about this **workbook** to: Workbooks@USScouts.Org

Comments or suggestions for changes to the **requirements** for the **merit badge** should be sent to: Merit.Badge@Scouting.Org

1. Tell what archaeology is and explain to your counselor how it differs or relates to other fields of study such as anthropology, geology, paleontology, and history.

Tell what archaeology is

How does it differ or relate to:

Anthropology:

Geology:

Workbook © Copyright 2018 - U.S. Scouting Service Project, Inc. - All Rights Reserved
Requirements © Copyright, Boy Scouts of America (Used with permission.)

This workbook may be reproduced and used locally by Scouts and Scouters for purposes consistent with the programs of the Boy Scouts of America (BSA), the World Organization of the Scout Movement (WOSM) or other Scouting and Guiding Organizations. However it may NOT be used or reproduced for electronic redistribution or for commercial or other non-Scouting purposes without the express permission of the U. S. Scouting Service Project, Inc. (USSSP).

Paleontology:

History

Explain how archaeology is different than artifact collecting or treasure hunting

2. Describe each of the following steps of the archaeological process: site location, development of background research and a research design, site survey and fieldwork, artifact identification and examination, interpretation, preservation, and information sharing.

Site location:

Development of background research and a research design

Site survey and fieldwork

Artifact identification and examination:

Interpretation:

Preservation:

Information sharing:

3. Describe at least two ways in which archaeologists determine the age of sites, structures, or artifacts.

1.

2.

Site 1:

- Point it out on a map Inside the USA Outside the USA Visited

Explain how it was discovered.

Describe some of the information from the past that has been found at the site.

Explain how the information gained from the study of this site answers questions that archaeologists are asking

Explain how the information may be important for modern people.

Site 2:

- Point it out on a map Inside the USA Outside the USA Visited

Explain how it was discovered.

Describe some of the information from the past that has been found at the site.

Explain how the information gained from the study of this site answers questions that archaeologists are asking

Explain how the information may be important for modern people.

Site 3:

- Point it out on a map Inside the USA Outside the USA Visited

Explain how it was discovered.

Describe some of the information from the past that has been found at the site.

Explain how the information gained from the study of this site answers questions that archaeologists are asking

Explain how the information may be important for modern people.

Site 4:

- Point it out on a map Inside the USA Outside the USA Visited

Explain how it was discovered.

Describe some of the information from the past that has been found at the site.

Explain how the information gained from the study of this site answers questions that archaeologists are asking

Explain how the information may be important for modern people.

Site 5:

- Point it out on a map Inside the USA Outside the USA Visited

Explain how it was discovered.

Describe some of the information from the past that has been found at the site.

Explain how the information gained from the study of this site answers questions that archaeologists are asking

Explain how the information may be important for modern people.

6. Do the following:

a. Explain why it is important to protect archaeological sites.

b. Explain what people should do if they think they have found an artifact.

c. Describe ways in which you can be a protector of the past.

7. Do ONE of the following and discuss your findings with your counselor:

a. Visit a museum to observe how artifacts aid in conveying history.

Where did you visit?	

- b. Present to your counselor a significant family artifact/heirloom and discuss its history.

What was the heirloom?

- c. Make a list of the trash your family throws out during one week.

Discuss with your counselor what archaeologists might learn about you and your family if they found your trash a thousand years from now.

8. Do either A or B of the following:

- a. With your parent's and counselor's permission, assist a qualified archaeologist for at least eight hours with a project being worked on. Projects may include surveying, site monitoring, site stabilization, excavation, laboratory analysis, use of digital archaeological technology, or public outreach. Describe your involvement in the project, what you learned about archaeology, and the steps of archaeological inquiry.

Note: Visiting an archaeological site will require advance planning. An archaeological site during study can be a dangerous place. While there, you will need to closely follow the archaeologist's directions and comply with all the safety procedures. Be aware of the changing conditions at the site.

- b. With your counselor's approval, take part in a simulated archaeological project designed by a qualified archaeologist. The project must include the use of a simulated archaeological site including artifacts and features for the site. Using the steps of archaeological inquiry, analyze the "artifacts and features" and document the spatial relationships of the "artifacts and features" at the simulated site. Explain how the environment and time can affect the interpretation of an artifact and the overall archaeological site. Tell how you would share the results of your analysis with other researchers and the public

Note: To find out how to make a simulated archaeological site, talk with a professional archaeologist, trained avocational archaeologist, museum school instructor, junior high or high school science teacher, advisor from a local archaeology society, or other qualified instructor.

Arts and crafts

Tools

Trade and markets

Rituals and religions

Diets

Relationships with other groups

Describe what you would expect to find at an archaeological site where these people lived.

Explain how these people influenced your current community.

11. Identify three career opportunities in archaeology.

1.	
2.	
3.	

Pick one and explain how to prepare for such a career.

Discuss with your counselor what education and training are required, and explain why this profession might interest you.

Education

Training

Why this profession might interest you.

When working on merit badges, Scouts and Scouters should be aware of some vital information in the current edition of the *Guide to Advancement* (BSA publication 33088). Important excerpts from that publication can be downloaded from <http://usscouts.org/advance/docs/GTA-Excerpts-meritbadges.pdf>. You can download a complete copy of the *Guide to Advancement* from <http://www.scouting.org/filestore/pdf/33088.pdf>.
