**Requirement 3**

Do ONE of the following:

*Option A:*
Spend three hours in each of two different kinds of natural habitats or at different elevations. List the different mammal species and individual members that you identified by sight or sign.

Area/Elevation 1:

Mammals identified:

Area/Elevation 2:

Mammals identified:

Tell why all mammals do not live in the same kind of habitat.

*Option B:*
Spend three hours on each of five days on at least a 25-acre area (about the size of 3 1/2 football fields). List the mammal species you identified by sight or sign.

*Option C:*
From study and reading, write a simple history of one nongame mammal that lives in your area. Tell how this mammal lived before its habitat was affected in any way by humans.

Tell about its natural habitat.

Tell about how it reproduces.
Tell what it eats and what eats it.

Describe its dependency upon plants, upon other animals (including man), and how they depend upon it.

Tell how it is helpful or harmful to man.

**Requirement 4**

Do ONE of the following:

*Option A:*

Under the guidance of a nature center or natural history museum, make two study skins of rats or mice.

Skin 1:

Skin 2:

Tell the uses of study skins.

Tell the uses of mounted specimens.

*Option B:*

Take good pictures of two kinds of mammals in the wild. Record light conditions, film used, exposure, and other factors, including notes on the activities of the pictured animals. Show your photos to your counselor or attach copies to this work sheet.

*Option C:*

On another sheet of paper, write a life history of a native game mammal that lives in your area, covering the points outlined in requirement 3c. List your sources for this information below and attach a copy of the life history to this work sheet.

Native Game Animal:

How did this mammal live before it was affected by man:
How does it reproduce:

What does it eat:

What eats it:

Describe its natural habitat:

Describe its dependency on plants:

Describe its dependency on other animals (including man):

How do these animals depend on it:

How is it helpful or harmful to man:

Option D:
Make and bait a tracking pit. Report what mammals and other animals came to the bait.

Option E:
Visit a natural history museum. Museum Visited: Date:

Report on how specimens are prepared and cataloged.

What are the purposes of museums?

Option F:
Write a report of 500 words on a book you’ve read about a mammal species. Attach a copy of your report to this work sheet.

Option G:
Trace two possible food chains of carnivorous mammals beginning with soil through four stages to the mammal.

Requirement 5

Working with your counselor, select and carry out one project that will influence the numbers of one or more mammals.

What project did you and your counselor do?

What mammals did or will your project influence?

Describe what types of influences your project had or will have on the mammals.

Merit badge worksheets will not be accepted at the Council Office in place of the official Merit Badge Application Card. Those who do not complete all the requirements should take their partially completed merit badge worksheet and their official application card to their local merit badge counselors for completion.
